

# Questions and Answers

# Question #1

- Q: How long are segments adopted for?
- A: Adopters keep their section(s) as long as they want. There is no time limit. We just ask that folks let us know when they wish to step away.

# Question #2

- Q: Has the OTA applied for foundation grants? If not, is there interest in doing that?
- A: We have. We do receive some grants, but could use more. Are you interested in assisting with this effort? If so, send me your contact information to [jimrsch1@gmail.com](mailto:jimrsch1@gmail.com).

# Question #3

- Q: What is the primary hurdle/concern with private landowners preventing them from allowing a partnership with the OTA?
- A: Resistance to allowing trail on their land. Concerns around trespassing and vandalism.

# Question #4

- Q: I am interested in the planning/development of the trail. How could I get involved with this? Ted Koenig
- A: Hi Ted, send me your contact information to [jimrsch1@gmail.com](mailto:jimrsch1@gmail.com). I will follow-up and set up some time to chat.

# Question #5

- Q: What are the requirements for section adoption reports? Essentially, what does each report entail?
- A: The reports aren't complicated. Time worked, drive time, distance driven. The rest of the report is a free-form description of work done, and a space to report other problems or work that still needs to be done on the segment.
